

WHERE PASSION MEETS CAREER

ELECTRICAL INSULATION EXPERT (m/f/d) for large rotating electrical machines (full-time)

WEIZ

ANDRITZ is an international technology group and supplies industrial plants, systems, equipment and services for various industries. The company is one of the technology and market leader in hydro-power, pulp and paper, metal processing and steel industries, as well as in municipal and industrial solid-liquid separation.

OUR OFFER

We are looking for an ELECTRICAL INSULATION EXPERT (m/f/d) for rotating electrical machines in the generator R&D department at our site in **Weiz / Austria**, on a full-time basis.

YOUR PROFILE

- Sound technical education, preferably university degree in electrical engineering (Master's degree)

- Relevant work experience is desirable
- Special knowledge in the field of high voltage technology and diagnostics is an advantage
- Willingness to travel (10%)
- Very good knowledge of German and English
- Ability to work in a team and strong communication skills

YOUR TASKS

- Independent handling of special high-voltage topics
- Diagnosis, inspection and condition assessment of high-voltage windings and systems
- Continuous development of existing insulation technologies

- Assistance and support in insulation technology issues for global ANDRITZ sites
- Coordination of R&D projects with University partners
- Representation of ANDRITZ in international committees
